

(3) Studies involved with the preparation of the environmental analysis required under § 148.109(t).

§ 148.503 Notice of proposed site evaluation activities.

(a) Any person desiring to conduct site evaluation and preconstruction testing at potential deepwater port sites must submit a written notice to the Commandant (G-M), U.S. Coast Guard, Washington, DC 20593, at least 10 days before the commencement of any activities.

(b) The written notice of proposed site evaluations and preconstruction testing at potential deepwater port locations must include the following:

(1) The identification of persons or agencies participating in the proposed activities.

(2) The type of activities and the manner in which they will be conducted.

(3) Chartlets showing the location where the proposed activities are to be conducted and locations of all offshore structures, including pipelines and cables, in or near the area of proposed activity.

(4) The specific purpose of the activities.

(5) The dates on which the activities will be commenced and completed.

(6) Available environmental data on the environmental consequences of the activities.

(7) A preliminary report, based on existing data, of the historic and archeological significance of the area where the proposed activities are to take place, including a report of each contact made with any appropriate State liaison officer for historic preservation.

(c) For the activities listed below, because they are not usually harmful to the environment, the notice need contain only the information required in paragraphs (b)(1), (2), and (5) of this section, as well as a general indication of the proposed location and purpose of the activities:

(1) Gravity and magnetometric measurements.

(2) Bottom and sub-bottom acoustic profiling without the use of explosives.

(3) Sediment sampling of a limited nature using either core or grab samplers if geological profiles indicate no

discontinuities that may have archeological significance.

(4) Water and biotic sampling, if the sampling does not adversely affect shellfish beds, marine mammals, or an endangered species, or if permitted by another Federal agency.

(5) Meteorological measurements, including the setting of instruments.

(6) Hydrographic and oceanographic measurements, including the setting of instruments.

(7) Small diameter core sampling to determine foundation conditions.

(d) The Coast Guard advises and coordinates with appropriate Federal agencies and States concerning activities under this subpart.

(e) If necessary, the Coast Guard requires additional information in individual cases.

[CGD 75-194, 41 FR 16800, Apr. 22, 1976, as amended by CGD 88-052, 53 FR 25121, July 1, 1988]

§ 148.505 General conditions of performance.

(a) No person may conduct activities to which this subpart applies except in compliance with the regulations in this subpart and all other applicable laws and regulations.

(b) A separate written notice is required for each site.

(c) Measures must be taken to prevent or minimize the effect of those activities that may:

(1) Adversely affect the environment;

(2) Interfere with authorized uses of the Outer Continental Shelf or navigable waters; or

(3) Pose a threat to human health and welfare.

§ 148.507 Reports.

Each person conducting site evaluation and preconstruction testing at potential deepwater port locations shall:

(a) Notify the Coast Guard of any evidence of objects of cultural, historical, or archeological significance immediately upon their discovery;

(b) Notify the Coast Guard immediately of any:

(1) Adverse effects on the environment;

(2) Interference with Authorized uses of the Outer Continental Shelf;
